

Session Content and Description

Session Content

The first rule for an ASTD conference session is that it is a learning experience.

This means:

- Content that is informative and relevant, with clear and immediate application to the learner's work
- Developed using accepted principles of adult learning
- Minimal use of PowerPoint slides
- Includes interactive and/or hands-on methods to support the learning
- Content corresponds to the required Application-Focused Learning Objectives
- Handouts which reflect the content and are a resource for later use

Session Description

Please be sure that your session accurately reflects what was in your written description. ASTD accepted your original proposal on its merits and fit with the overall program plan. Sessions should not be substantially changed without prior ASTD approval.

Validity

Please be sure to support your statements with appropriate citations of published works or studies. If you are offering a model of your own development, please substantiate its use by relevant case examples and/or a client who can attest to the value and application from personal experience.
