

Cover Page Samples

Here is a selection of handout cover pages from TechKnowledge 2007 and the 2007 International Conference and Exposition. There are pages with simple text and no colors, logos, or graphics. Other pages have borders, text boxes, the ASTD logo, the speaker's company logo, and color graphics.

We ask you not to use colors or shading in your handout. However, on the sample pages with color, all the pertinent text is legible because the color does not affect the text.

Adjust the screen magnification on the toolbar to increase the size of the screen shots.
